The Research Director  
The Council for Tobacco Research-U.S.A., Inc.  
900 Third Ave.  
New York, N.Y. 10022

Dear Sir/Madam:

I have been studying the possible neoplastic transformation of human cells by suspected carcinogenic metal compounds and have recently obtained some interesting results. I am planning to submit a research proposal to the Council for Tobacco Research but am not sure of the process. Could you kindly advise me of the procedure and send me information and/or necessary forms so as to facilitate the application process.

Thank you.

Sincerely Yours,

  
Suriender Kumar, Ph.D.  
Professor of Biochemistry  
and Molecular Biology
